DISTRACTION CAR THEFTS

Vehicles are now built in such a way that it is almost impossible to steal them without the keys.

Thieves now need your keys to steal your car and in order to get them they are either breaking into your house, or are using distraction methods to get you away from the car whilst it is running.

If you see an item in the road (rubbish bin etc) then by all means stop and move it, just remember to turn off your car and lock it whilst doing so.

"Don't get distracted – It could prove expensive"
